PROFESSIONAL INSURANCE AGENTS

Insurance Regulation Legislative Position

HOW YOU CAN HELP DEFEND STATE
INSURANCE REGULATION

SUPPORT legislation to repeal the Federal Insurance Office (FIO).

PIA National supports the Federal Insurance Office Abolishment Act of 2019, H.R. 1862, introduced by Rep. Alex Mooney (R-WV).

The existence of the FIO presents an ongoing threat to the system of state insurance regulation. This legislation will remove this threat and ensure the states remain the exclusive regulators of insurance.

While PIA National has advocated for and continues to seek the full repeal of this office, we support efforts to reform the FIO, particularly if such efforts remove its domestic authority.

Introduce or support legislation in the Senate to either fully repeal, or scale back, the scope and authority of the FIO.
